WELCOME MESSAGE

Dear Colleagues, Dear Friends

Welcome to the World Day of Regional Anaesthesia and Pain Medicine – 3rd Edition.

Our 2026 theme is practical and straightforward: Equity, Access, Relief - through Regional Anaesthesia.

Regional anaesthesia and Pain Medicine represent a global community. Clinicians from every continent have adopted these practices to enhance surgical safety, promote faster recovery, and ensure genuine patient comfort. In recent years, we have witnessed significant growth in this field, including the establishment of more training hubs, increased availability of ultrasound technology, improved safety protocols, and the development of clear pathways that make nerve blocks a routine part of patient care rather than an exception. Now is the time to capitalize on this momentum and secure these advancements for the future.

This year, our emphasis is on delivering neuraxial and peripheral techniques safely and reliably wherever care is given - from theatres and day-surgery centres to emergency departments, trauma services, maternity units and rural clinics.

Our 2026 priorities

- Equity: the benefits of Regional anaesthesia and Pain Medicine should not depend on geography, language, or resources.
- Access: practical training, supervision and essential kit—from ultrasound to robust landmark techniques—available in every setting.
- Relief: timely, procedure-specific blocks that restore comfort, dignity and function.
- Together with AFSRA, ASRA Pain Medicine, AOSRA Pain Medicine, LASRA, and national societies worldwide, we will focus on action:
- Share and scale what works: open, multilingual teaching resources; simple, safe block pathways; checklists that travel.
- Build capacity: mentorship, twinning and hands-on workshops that create local trainers and sustainable services.
- Measure what matters: consistent data on access and outcomes so we can learn, improve and advocate effectively.
- Support low-resource contexts: adaptable toolkits, essential medicines advocacy, and context-appropriate solutions—not one-size-fits-all.
- Strengthen teams: interprofessional training and human factors that make Regional anaesthesia and Pain Medicine reliable in the busy clinical environment, not just in demonstrations.
- Think long term: embed Regional anaesthesia and Pain Medicine within perioperative pathways, quality improvement, and environmentally responsible care.

How you can help

Host a hub. Teach a block. Translate a resource. Mentor a team. Share the learning.

Let this third World Day be remembered for its reach and readiness: more first-time sites delivering blocks; more clinicians confident with core techniques; more patients receiving the right block, at the right time, every time.

Thank you for your energy, generosity and commitment.

Equity. Access. Relief. With Regional Anaesthesia and Pain Medicine at the heart.

WELCOME MESSAGE

Dear Colleagues, Dear Friends,

It is with great pleasure and honor that we welcome you to the **3rd World Day of Regional Anaesthesia and Pain Therapy**, which will take place on **Saturday, January 31, 2026**, under the auspices of the **European Society of Regional Anaesthesia & Pain Therapy (ESRA)**, in collaboration with the National Societies of Regional Anaesthesia around the world.

This year's event continues to strengthen its international presence, with the participation of centers from all continents. For the **Greece–Cyprus Zone**, it is a particular honor to have the participation of three cities: **Athens, Thessaloniki, and Larissa**, highlighting our region's continued commitment to the advancement of Regional Anaesthesia and Pain Therapy.

This day offers an excellent opportunity for interactive education, fruitful exchange of ideas, and reinforcement of international collaboration among specialist and trainee anaesthesiologists. Our goal is to showcase modern scientific practices, integrate innovations, and bridge theoretical knowledge with clinical application.

Within the framework of this international scientific “celebration,” we remain dedicated to promoting excellence, continuous education, and specialization, ultimately aiming to enhance the quality of care we provide to our patients. Your presence and active participation are key pillars for the success of this event and for the continued development of our specialty.

Importantly, **registration is offered free of charge by the ESRA Hellas Board** to Greek and Cypriot anaesthesiologists, with the sole requirement of registering or renewing your ESRA membership (**ESRA Europe – ESRA Hellas Joint Membership**) for the year **2026**. This provides even more colleagues the opportunity to benefit from the activities and scientific offerings of the day.

We invite you to participate actively, contribute with a spirit of collaboration and scientific progress, and support our shared effort to further improve anaesthetic practice.

With Cordial Greetings

Evmorfia Stavropoulou
